August 2nd, 2019

Purpose

The purpose of this document is to highlight the significant changes to the AZ-400T06: Implementing Continuous Feedback course from the previous release. This document is for Microsoft Certified Trainers and Instructors to use before they deliver the class or during preparation for teaching the class.

This is not an error log or a supplement to the Course Materials. This document just provides additional context so that you can understand the major changes to the course content. Most of the course materials in the MCT Download Center have been updated to fix typos, broken links, and formatting. So, we recommend you always download the latest copies.

✔ Please read the Instructor Preparation Guide which provides the overall strategy for implementing this training.

Update Date - Aug 2019

Global Change – Change across all modules

All video files have been removed from the course and replaced with text. The following content is, therefore, new:

- ➢ Modules/M01-Recommend and Design System Feedback Mechanisms/L02-Continuous Experimentation mindset/02-Using Feature Flags to Safely Get Feedback on Features
- ➢ Modules/M01-Recommend and Design System Feedback Mechanisms/L04-Design processes to capture and analyze user feedback/03-Deploy with RM Green light capabilities
- ➢ Modules/M02-Implement Process for Routing System Feedback to Development Teams/L01-Implement Tools to Track System Usage, Feature Usage, and Flow/03-How Does Application Insights Work
- ➢ Modules/M02-Implement Process for Routing System Feedback to Development Teams/L01-Implement Tools to Track System Usage, Feature Usage, and Flow/05-Application Insights
